

LCAA Airbag

Maiden Day 2022 is almost here!

After watching the weather report for this weekend it seems that Sunday will be a better picnic day than Saturday, SO.....**Maiden Day** is moving one more time to **THIS SUNDAY May 15th.**

The fun starts when you show up and the grill will start burning food around 11:30ish...

We'll also have some donated used aircraft, parts and supplies up for sale with all proceeds going to the club for future events.

Lastly

For those of you that didn't join this months club meeting here is the link to the Safety Briefing presented to us by Dave Eccleston.
