

## *Happy Memorial Day Weekend*

*No club picnic this weekend but we all hope you have time to come to the field to fly and Socialize!!*

*It's truly fantastic that we're starting to see club members that have not been to the field to fly in awhile coming out.*

*We're excited to being enjoying our hobby with everyone again but for some members, and meaning no disrespect, we've noticed the time away has made some of us rusty. That's ok, we understand and want you all to know that we, the board, club instructors and core of constant flyers are here to help oil those rusty reflexes and give you the assurance your radio and plane are ready for flight.*

*ALWAYS.... Feel free to ask for assistance or ask questions when you are at the field and are unsure of what you are doing. Additionally, with keeping that in mind on Saturdays June 26th, from 10 - 3 and July 3rd during our picnic, club instructors will be specially available to anyone that would like to review their setup, have support while flying or just ask questions.*

### **Remember**

- ⇒ *To join us on Slack, use this link: [Slack](#)*
- ⇒ *To review our Annual Safety Briefing, use this link: [Safety Briefing](#)*
- ⇒ *July 3rd Club Picnic*
