

# LCAA Airbag Lite

1. *Sunday, October 6th is Hobby Hanger Day at our LCAA field. Festivities start about 9:30 so don't be late!!*

2. **Remember:** The park is having work done on the main building and the contractors have worked out with the county that unless a park employee is on site the main gate is to remain locked. **Because of this our lock has been temporarily removed.** We have access to the park only when the park staff unlocks the gate. **Normal hours of operation are 8AM everyday thru 7:30PM Tuesday, Wednesday, Thursday, Saturday and Sunday or 4PM on Monday and Friday for the rest of September.**

We have been informed the work will take a few more weeks and our lock will be placed back on the gate as soon as it is completed.

**IMPORTANT: Starting October 1st the park will be closing at **6:00PM** each night except Monday's and Friday's which continues with a 4PM closing.**

3. **First advanced message notice regarding dues and fees schedule discussion planned for our October club meeting**

After much internal debate and conversations, the board finds that it must recommend a slight increase in our annual dues, to ensure the club continues to have the funds needed to keep providing all of us with a fantastic place to fly all year round. At least for those of us that fly all year round.

The current fees and proposed increases are as follows:

Type	Current \$	Proposed \$
Junior	\$1	\$10
Part Year	\$30	\$50
Senior	\$35	\$50
Regular	\$50	\$75

**Just to note some of the things our dues get us:**

- > A place to legally fly from
- > Monthly picnics
- > A mowed/manicured field
- > A solar powered charging station with the ability to handle multiple chargers at once
- > Onsite safety equipment - fire extinguishers and fully stocked first aid bag
- > A club website that happens to report on the weather conditions at the field

We haven't had any increases in well over 10 years and we've be able to keep expenses down to a minimum mostly through volunteerism but over the last few years our available funds have been decreasing and we need to refill the treasure chest.

We'll officially vote on this with all current club members, present during the annual meeting. While I'm personally in favor of this, please be sure to come out and let your voice be heard either for or against when we, as a club, vote.
